

## PRESS RELEASE

August 2024

### The John Fisher School Sixth Form Results 2024

We are delighted to share news of our 2024 Sixth Form results, and to pay tribute to our Sixth Form leavers, many of whom have excelled. Among several outstanding performances, we would like to mention Rodrigo who secured A\*A\*A\*A\* in Mathematics, Further Mathematics, Chemistry and Physics. Rodrigo, who will take up a place at Cambridge to study Natural Sciences, was one of **ten** students who all achieved at least three grades at A/A\*. Taking account of all qualifications, **twenty-five** students were awarded the equivalent UCAS points of grade A in three subjects. University destinations include the Universities of Bath, Bristol, Cambridge, Durham, Imperial, KCL, QMUL, Southampton, Sussex, Warwick and York.

Headteacher Robert Teague said *"I am proud of our students. These results are testament to the hard work of our students and staff, and the unstinting support of parents and carers. Our sixth form leavers will be greatly missed. Not only have they shone academically but many of them have distinguished themselves in other aspects of school life, including music and sport. Above all, we are proud of the young men they have become and, as well as offering our warmest congratulations, we wish them every success in the next stage of their lives."*

*"Special thanks also to our dedicated staff who have provided outstanding support and guidance to our students throughout their school journey. While today is very much a day of celebration for our students, we are pleased to note the significant improvement in our A Level results and we are looking forward to further progress over the next couple of years."*

Director of Sixth Form, Danny Jackson said *"Congratulations to all of our students and the excellent results that they have achieved. I am proud of each and every one of them, knowing how hard they have worked towards their personal goals. I am delighted to see John Fisher's percentage of top A-level grades almost double since last year, as this is nothing less than our hard-working students deserve. I wish each and everyone of them the very best for the promising futures that lay ahead of them."*
